Ready to switch to solar?

Contact Avo today and let our team of experts guide you through the process. We'll assess your energy needs, provide recommendations, and offer a no-obligation quote that suits your budget.

Step 1

Get more information or apply by using the QR code

Step 2

We'll contact you to discuss the details and financing options.

Step 3

We will set up an on-site or virtual inspection of your home.

Step 4

Complete your finance application or pay in cash.

Step 5

An installer will arrange an installation date that suits you.

Or contact us at avocommunities@avo.africa

MFC instalment Amort calculator is used to calculate the approximate instalment. The total instalment includes the monthly instalment, a once-off initiation fee of R1 207,50 and a monthly admin fee of R69.

* Previous prices were calculated over 72 months while new prices are calculated over 96 months. All costs and financing instalments quoted were correct at time of publication, but are subject to change without notice. The monthly repayments and interest rates applied to the pricing displayed here are estimates only and used for the purpose of giving examples. It is not indicative of the actual rate and finance that you may qualify for, and it is not confirmation that you will be approved for financing. If you are interested in financing your solar equipment, you will need to go through an affordability assessment with MFC, a division of Nedbank. The figures quoted will not be binding on MFC. All standard MFC credit terms and conditions apply.

* Prices are subject to change
